Investment management style

The firm's equity management style focuses on security selection to add most of the value. Companies with earnings stability, strong management teams and sound balance sheets are emphasized in their growth equity portfolios. Companies relatively undervalued with healthy balance sheets, and exhibiting a catalyst for revaluation are favoured in the firm's value equity portfolio.

Fund objective

The Fund aims to provide investors with a real rate of return. It's expected that virtually all returns will be derived from income. The Fund is suitable for clients with a low risk tolerance who have a very short investment time horizon.
